

Jersey Freshwater Angling Association

J.F.A.A. INTERIM 2010-2011 LICENCE ARRANGEMENTS

The Committee thought it helpful to issue a note to clarify the 2010/2011 licence arrangements in respect of the announcement by Jersey Water to empty Val De La Mare during the Summer-

- 1) Only 2010/11 Season trout members (either Val De La Mare or Queens Valley) can fish Val De La Mare until the opening day of the new Trout Season either by fly or spinner. The trout season is presently closed on Queens Valley until the opening of the 2011/12 Season.
- 2) **All** members who wish to be trout members for 2011/12 will be able to obtain a Queens Valley Trout Permit (odd/even/both) and this will **also** allow them to fish Val De La Mare when they are advised it is open to do so. Trout members who do not wish to renew for 2011/12 can, of course, take a coarse permit which includes the arrangements in 3) below.
- 3) From the beginning of the 2011/12 Season Coarse Anglers will be able to fish Val De La Mare **only on nominated extraction days as listed on the Match & Key Dates Card (also posted on the web site)** The Club will make arrangements for the fish caught on these days to be re-located for stocking or seeding purposes and all who fish will be requested to assist in the process to move them to the tanks from their swim.

Also if members wish to assist in netting later in summer it would be appreciated if you could advise a Committee Member of your name, phone number /email address and advise we will be in touch.

Further details, prices and dates will be available after the late February meeting scheduled with Jersey Water
Many thanks for your help and assistance.

Bob McGinnigle
Chairman J.F.A.A.
